

SP SPT SP4000 DSST
High-Performance All-Season Tire

Features

- Groove area optimized for traction on slippery surfaces
- Rigid tread blocks for dry handling performance
- Twin-Shift Noise Reduction System for tread block placement
- Exclusive, high performance all-season tread compound
- Circumferential rain groove design and placement
- Dunlop Self-Supporting Technology (DSST)® features a patented sidewall construction and specially-developed compounds

Benefits

- Strong grip in ice and snow
- Excellent steering stability and control hard cornering
- Quiet performance
- Optimized grip, control, energy absorption and tread wear in a wide range of driving and weather conditions
- All-season and wet traction capabilities
- Continued mobility up to a distance of 50 miles at a maximum speed of 50 mph in normal conditions
